REFLECTION

What makes you feel alive?

When was the last time you decided/was able to look at yourself and reflect?

When was the last time you felt inspired? What were the ingredients for this inspiration?

Draw a picture of a strategy you use to generate ideas.

How do you deal with uncertainty? Perhaps give one example.

Are you able to honestly and objectively evaluate your flaws and weaknesses?

If you could change one thing about the world, what would it be?

What would you incorporate from your experience at NN this summer into your immediate future in school or otherwise?
