

Public Service Reimagined

C/CORPS EXPERIENCE

C/CORPS LEADERSHIP

A network of C/Corps graduates with shared skills, processes, and frameworks for collective action, plus fellows and leaders who guide and facilitate the C/Corps experiences.

Fellows

C/Corps Fellows are young or mid-career professionals working within C/Corps teams, serving as primary points of contact for Associates on projects. C/Corps promotes further development of their leadership skills.

Mid to Senior Level

Mid to Senior Level advisors guide and lead C/Corps Cohorts. They select Associates, and provide feedback on project work and share professional development content. They may serve as lead on projects.

C/Corps Graduates

Former C/Corps members create a network of graduates with shared skills, processes, and frameworks for collective action. As a “reservist” post-Associates can be called in to assist on projects. These Associates remain connected to a lifelong network, including other individuals with shared experiences and skills.
